2 Q But doesn't your First Look model assume  
3 that publishers have the ability to do -- to solve an  
4 optimization problem using the same information that  
5 they would need to solve the multistep approach  
6 optimization problem?

7 MS. HANSEN: Object to the form.

8 THE WITNESS: So, what I'm saying is that,  
9 in my assumption, the -- the exchange, in the top, is  
10 solving a simpler optimization problem. So, there is  
11 some optimization going on, but it's a simpler  
12 optimization problem than if you were to assume this  
13 multiple-step forward-looking behavior. In my opinion,

4 Q In your reports, did you offer any opinion  
5 about the effects of Google's acquisition of  
6 DoubleClick?

7 MS. HANSEN: Object to the form.

8 THE WITNESS: I did not offer an opinion on  
9 Google's acquisition. I discuss it -- let me be  
10 more precise. I discuss, I mention it, and --  
11 and then, you know, the -- the role it played on  
12 Google acquiring the -- the exchange, the ad server.  
13 And -- and then I offer an opinion on the  
14 exclusivities that follow, the restrictions that  
15 follow. So, it's -- you know, the acquisition is --  
16 is -- is -- is -- is -- is described in my report, and  
17 I guess it's related to some of the things I -- I --  
18 I -- I -- I -- I describe.

4 BY MR. EWALT:

5 Q In your reports, did you offer any opinions  
6 about the effects of Project Bernanke?

7 MS. HANSEN: Object to the form.

8 THE WITNESS: In my report, I discuss  
9 buy-side DRS, which is a precursor of Bernanke, to the  
10 extent that data -- scale and data provides an advantage  
11 and the denial of scale and data provides a disadvantage  
12 in implementing a buy-side and DRS-type algorithm. So, I  
13 -- I -- I describe buy-side DRS to that extent.

14 BY MR. EWALT:

15 Q Did you offer any opinions about the effects of  
16 Project Bernanke?

17 MS. HANSEN: Object to the form.

18 THE WITNESS: I did not, even though I mention  
19 it as an example of how data and the lack of data can  
20 help or hurt a firm implementing buy-side DRS. I do not  
21 offer a specific opinion on the effect of Bernanke on  
22 rivals' scale.
